**Subject:** RE: Kansas Wells & Diesel Use  
**Attachments:** removed.txt

David,

When I saw the report last week I was unable to find any use of these materials on [www.fracfocus.org](http://www.fracfocus.org) since you've released the guidance in February. I'm currently working with our IT department to access all completion reports containing hydraulic fracturing chemical disclosures made to us instead of [www.fracfocus.org](http://www.fracfocus.org) during the same timeframe. As of this morning they were still working on the query. We also took the time to review our procedures internally to make sure the people processing the completion reports containing the hydraulic fracturing chemical disclosures are looking for these CAS numbers.

Having said that, Friday afternoon would work and as of now only Tuesday of next week is out for me; however, it is looking like Wednesday won't work either.

Thanks,

**Ryan A. Hoffman**

Ryan & Alan,

We received this afternoon the following correspondence. We see that the letter is also addressed to the KCC. After you've had an opportunity to review it, we'll need to discuss it with you as we prepare to formulate the Region 7 response back to the originator. Please let us know a convenient time to call you either the end of this week or early next week.

Thank You.

David Garrett
